INDEX OF AUTHORS

A

Adams, J. C. L. (and R. Hudson): A case of Ebstein's anomaly surviving to the age of 79. 129.
Aitchison, J. D. (and I. W. Caldwell): Pulmonary hypertension in dermatomyositis. 273.
Amram, S. S. (and E. Donoso, E. Braunwald, A. J. Gordon, and L. Kuhn): Left atrial, "pulmonary capillary" and œsophageal balloon pressure tracings in mitral valve disease. 327.
Ashton, Heather: Cardiac failure due to primary amyloidosis. 422.

B

Bacon, A. P. C. (and J. B. Hickie and T. M. D. Gimlette): Anomalous pulmonary venous drainage. 365.
Barnard, P. J. (and A. J. Brink): Supernumerary chambers to the left heart. 309.
Barritt, D. W. (and H. Urich): Congenital tricuspid incompetence. 133.
Basu, B. A. K. (and A. Das): Saddle embolus of the aortic bifurcation treated by embolectomy. 126.
Baylis, J. H. (and Maurice Campbell): The course and prognosis of coarctation of the aorta. 475.
Benson, R. (and J. F. Smith): Cardiac amyloidosis. 529.
Blömer, Hans (and Gustav Nylin, Hardin Jones, Sven Hedlund, and Carl-Gösta Rylander): Further studies on the cerebral blood flow estimated with thorium-B-labelled erythrocytes. 385.
Boesen, Ib (and John Lind, B. Merrild-Hansen, Th. Rosendal, Ole Storm, and Carl Wegelius): The diagnosis of congenital heart disease in infants by catheterization and selective angiocardiography. 355.
Bougnoux, J. (and E. Donzelot, V. Serafini, P. Kervoelen, and R. Heim de Balsac): Radiological kinetics and pulmonary arterial pressure in congenital heart disease. 35.
Bourne, Geoffrey: Lord Horder. 123.
Braun, K. (and L. Kornel): The Q–T interval in rheumatic heart disease. 8.
—— (and G. Izak): The ballistocardiogram in mitral valvular disease. 44.
Braunwald, E. (and A. J. Gordon, L. Kuhn, S. S. Amram, and E. Donoso): Left atrial, "pulmonary capillary" and œsophageal balloon pressure tracings in mitral valve disease. 327.
Brink, A. J. (and P. J. Barnard): Supernumerary chambers to the left heart. 309.
Brotmacher, L.: The normal ballistocardiogram. 145.
Brown, James W. (and D. Heath, and W. Whitaker): Muscular defects in the ventricular septum. 1.
—— (and D. Heath, T. L. Morris, and W. Whitaker): Tricuspid atresia. 499.

C

Caldwell, I. W. (and J. D. Aitchison): Pulmonary hypertension in dermatomyositis. 273.
Camerini, F. (and J. F. Goodwin, and M. Zoob): Lead V4R in right ventricular hypertrophy. 13.
Campbell, Maurice (and M. G. Thorne): Congenital heart block. 90.
—— (and Margaret Turner-Warwick): Two more families with cardiomegaly. 393.
—— Crighton Bramwell. 435.
—— (and J. H. Baylis): The course and prognosis of coarctation of the aorta. 475.
Cardell, B. S.: Corrected transposition of the great vessels. 186.
Chaudhury, D. C. Roy (and N. R. Konar): Rheumatic mitral stenosis and aortic incompetence in a case of dextrocardia with situs inversus. 277.
Conway, J. (and K. Shirley Smith): Clinical method of studying the elasticity of large arteries. 467.
Cope, Sir Zachary (and Sir John Parkinson): Hope Gosse. 563.
Cosh, J. A.: Patent ductus arteriosus with progressive dilatation of the pulmonary artery. 417.
Counihan, T. B.: Heart failure due to extreme obesity. 425.
Cree, I. C.: Truncus arteriosus and a single ventricle. 553.

D

Daber, K. S. (and P. J. D. Snow and A. Morgan Jones): A clinico-pathological study of coronary disease. 435.
Dexter, Lewis: Atrial septal defect. 209.
Danaraj, J. T.: Ventricular septal defect simulating patent ductus arteriosus. 279.
Das, A. (and B. A. K. Basu): Saddle embolus of the aortic bifurcation treated by embolectomy. 126.
De Balsac, R. Heim (and E. Donzelot, V. Serafini, J. Bougnoux, and P. Kervoelen): Radiological kinetics and pulmonary arterial pressure in congenital heart disease. 35.
Donoso, E. (and A. J. Gordon, L. Kuhn, S. S. Amram, and E. Braunwald): Left atrial, "pulmonary capillary" and œsophageal balloon pressure tracings in mitral valve disease. 327.
Donzelot, E. (and V. Serafini, J. Bougnoux, P. Kervoelen, and R. Heim de Balsac): Radiological kinetics and pulmonary arterial pressure in congenital heart disease. 35.

E

Emanuel, R. W. (and J. N. Pattinson): Absence of the left pulmonary artery in Fallot's tetralogy. 289.
Emslie-Smith, D. (and K. G. Lowe, and I. G. W. Hill): Intracardiac electrogram as an aid in the localization of pulmonary stenosis. 29.
—— The late intracardiac R wave and the præcordial pattern of right ventricular hypertrophy. 78.
Enticknap, J. B.: Bicuspid pulmonary valve in association with calcific aortic stenosis. 561.
Evans, William (and G. C. Sutton): Painless cardiac infarction. 259.

F

Fletcher, Evan (and Maude Stevenson): The effect of digitalis on nodal rhythm with reciprocal beats. 557.
Friedfield, L. (and I. Hoffman, M. H. Morris, and R. D. Gittler): Aberrant beats of Wolff-Parkinson-White configuration in arteriosclerotic heart disease. 301.
Frommer, Eva: Ball-thrombus of the right atrium. 137.
Fulton, R. M. (and E. G. Wade, and J. Mackinnon): The ballistocardiogram in the diagnosis of coronary arterial disease. 65.
Fulton, W. F. M.: Chronic generalized myocardial ischæmia with advanced coronary artery disease. 341.

G

Gaunt, R. T. (and M. A. Lecutier): Familial cardiomegaly. 251.
Gerlis, L. M.: The significance of adventitial infiltrations in coronary atherosclerosis. 166.
Gibson, T. C. (and J. P. Hughes): Stokes-Adams attacks in acute rheumatic carditis. 427.
Gimlette, T. M. D. (and J. B. Hickie, and A. P. C. Bason): Anomalous pulmonary venous drainage. 365.
Gittler, R. D. (and I. Hoffman, M. H. Morris, and L. Friedfield): Aberrant beats of Wolff-Parkinson-White configuration in arteriosclerotic heart disease. 301.
Goble, A. J. (and D. R. Hay, R. Hudson, and M. Sandler): Acquired heart disease with argentaffin carcinoma. 544.
Goodwin, J. F. (and F. Camerini, and M. Zoob): Lead V4R in right ventricular hypertrophy. 13.
Gordon, A. J. (and L. Kuhn, S. S. Amram, E. Donoso, and E. Braunwald): Left atrial, "pulmonary capillary" and œsophageal balloon pressure tracings in mitral valve disease. 327.
Gray, I. R.: Paradoxical splitting of the second heart sound. 21.
Gray, I.: (and A. Leatham): Auscultatory and phonocardiographic signs of atrial septal defect. 193.
Green, W. P. D. (and J. W. Paulley, R. Jones, and E. P. Kane): Myocardial toxoplasmosis. 55.
Gresham, G. Austin: Premature obliteration of the foramen ovale. 296.

H

Hay, D. R. (and A. J. Goble, R. Hudson, and M. Sandler): Acquired heart disease with argentaffin carcinoma. 544.
Heath, D. (and James W. Brown, and W. Whitaker): Muscular defects in the ventricular septum. 1.
—— (and James W. Brown, T. L. Morris, and W. Whitaker): Tricuspid atresia. 499.
Hedlund, Sven (and Gustav Nylin, Hans Blömer, Hardin Jones, and Carl-Gösta Rylander): Further studies on the cerebral flow estimated with thorium-B-labelled erythrocytes. 385.
Hickie, J. B. (and T. M. D. Gimlette, and A. P. C. Bason): Anomalous pulmonary venous drainage. 365.
Hill, I. G. W. (and D. Emslie-Smith, and K. G. Lowe): Intracardiac electrogram as an aid in the localization of pulmonary stenosis. 29.
Hodgkinson, R.: The effects of reserpine on hypertensive patients over a period of two years. 523.
Hoffman, I. (and M. H. Morris, L. Friedfield, and R. D. Gittler): Aberrant beats of Wolff-Parkinson-White configuration in arteriosclerotic heart disease. 301.
Holling, H. E. (and A. Venner): Disability and circulatory changes in mitral stenosis. 103.
Hudson, R. (and J. C. L. Adams): A case of Ebstein's anomaly surviving to the age of 79. 129.
—— (and A. J. Goble, D. R. Hay, and M. Sandler): Acquired heart disease with argentaffin carcinoma. 544.
Hughes, J. P. (and T. C. Gibson): Stokes-Adams attacks in acute rheumatic carditis. 427.

I

Izak, G. (and K. Braun): The ballistocardiogram in mitral valvular disease. 44.

J

Jones, A. Morgan (and P. J. D. Snow, and K. S. Daber): A clinico-pathological study of coronary disease. 435.
Jones, Hardin (and Gustav Nylin, Hans Blömer, Sven Hedlund, and Carl-Gösta Rylander): Further studies on the cerebral blood flow estimated with thorium-B-labelled erythrocytes. 385.
Jones, R. (and J. W. Paulley, W. P. D. Green, and E. P. Kane): Myocardial toxoplasmosis. 55.

K

Kane, E. P. (and J. W. Paulley, R. Jones, and W. P. D. Green): Myocardial toxoplasmosis. 55.
Kervoelen, P. (and E. Donzelot, V. Serafini, J. Bougnoux, and R. Heim de Balsac): Radiological kinetics and pulmonary arterial pressure in congenital heart disease. 35.
Konar, N. R. (and D. C. Roy Chaudhury): Rheumatic mitral stenosis and aortic incompetence in a case of dextrocardia with situs inversus. 277.
Kornel, L. (and K. Braun): The Q–T interval in rheumatic heart disease. 8.
Kuhn, L. (and A. J. Gordon, S. S. Amram, E. Donoso, and E. Braunwald): Left atrial, "pulmonary capillary" and œsophageal balloon pressure tracings in mitral valve disease. 327.

L

Leatham, A. (and I. Gray): Auscultatory and phonocardiographic signs of atrial septal defect. 193.
Lecutier, M. A. (and R. T. Gaunt): Familial cardiomegaly. 251.
Lind, John (and Ib Boesen, B. Merrild-Hansen, Th. Rosendal, Ole Storm, and Carl Wegelius): The diagnosis of congenital heart disease in infants by catheterization and selective angiocardiography. 355.
Lowe, K. G. (and D. Emslie-Smith and I. G. W. Hill): Intracardiac electrogram as an aid in the localization of pulmonary stenosis. 29.

M

Mackinnon, J. (and E. G. Wade and R. M. Fulton): The ballistocardiogram in the diagnosis of coronary arterial disease. 85.
—— (and C. F. H. Vickers, and E. G. Wade): The effects of adrenergic-blocking agents on the pulmonary circulation in man. 442.
—— (and E. G. Wade, and C. F. H. Vickers): Mitral stenosis with very high pulmonary vascular resistance and atypical features. 449.
—— (and E. G. Wade, and C. F. H. Vickers): The nature of the increased pulmonary vascular resistance in mitral stenosis. 458.
Massengale, O. Jr. (and V. McKusick, M. Wigod, and G. N. Webb): Spectral phonocardiographic studies in congenital heart disease. 403.
Meighan, S. Spence: Nail-fold capillaries in coarctation of the aorta. 496.
McKusick, V. (and Massengale, O. Jr., M. Wigod, and G. N. Webb): Spectral phonocardiographic studies in congenital heart disease. 403.
Merrild-Hansen, B. (and Ib Boesen, John Lind, Th. Rosendal, Ole Storm, and Carl Wegelius): The diagnosis of congenital heart disease in infants by catheterization and selective angiocardiography. 355.
Morris, M. H. (and I. Hoffman, L. Friedfield, and R. D. Gittler): Aberrant beats of Wolff-Parkinson-White configuration in arteriosclerotic heart disease. 301.
Morris, T. L. (and James W. Brown, D. Heath, and W. Whitaker): Tricuspid atresia. 499.

N

Nylin, Gustav (and Hans Blömer, Hardin Jones, Sven Hedlund, and Carl-Gösta Rylander): Further studies on the cerebral blood flow estimated with thorium-B-labelled erythrocytes. 385.

P

Papp, Cornelio (and M. M. Zion): The postcommissurotomy syndrome. 153.
Parkinson, Sir John (and Sir Zachary Cope): Hope Gosse. 563.
Pattinson, J. N. (and R. W. Emanuel): Absence of the left pulmonary artery in Fallot's tetralogy. 289.
Paulley, J. W. (and R. Jones, W. P. D. Green, and E. P. Kane): Myocardial toxoplasmosis. 55.
Peel, A. A. Fitzgerald: Selection for anticoagulant therapy in cardiac infarction using heparin retarded coagulation time. 378.

R

Rosendal, Th. (and Ib Boesen, B. Merrild-Hansen, Ole Storm, and Carl Wegelius): The diagnosis of congenital heart disease in infants by catheterization and selective angiocardiography. 355.
Rylander, Carl-Gösta (and Gustav Nylin, Hans Blömer, Hardin Jones, and Sven Hedlund): Further studies on the cerebral blood flow estimated with thorium-B-labelled erythrocytes. 385.

S

Sandler, M. (and A. J. Goble, D. R. Hay, and R. Hudson): Acquired heart disease with argentaffin carcinoma. 544.
Serafini, V. (and E. Donzelot, J. Bougnoux, P. Kervoelen, and R. Heim de Balsac): Radiological kinetics and pulmonary arterial pressure in congenital heart disease. 35.
Shepard, R. J.: The influence of age on the hæmoglobin level in congenital heart disease. 49.
Shephard, R. J. (and A. Venner): The pattern of respiration in rheumatic heart disease. 241.
Short, D. S.: Radiology of the lung in left heart failure. 233.
Smith, J. F. (and R. Benson): Cardiac amyloidosis. 529.
Smith, K. Shirley (and J. Conway): Clinical method of studying the elasticity of large arteries. 467.
Snow, P. J. D. (and A. Morgan Jones, and K. S. Daber): A clinico-pathological study of coronary disease. 435.
Sreenivisan, B. R.: The electrocardiogram in pneumoperitoneum, pneumothorax, and phrenic crush. 226.
Steinberg, Israel: Aneurysm of the aortic sinuses with pseudo-coarctation of the aorta. 85.
Stevenson, Maude (and Evan Fletcher): The effect of digitalis on nodal rhythm with reciprocal beats. 557.
Storm, Ole (and Ib Boesen, John Lind, B. Merrild-Hansen, Th. Rosendal, and Carl Wegelius): The diagnosis of congenital heart disease in infants by catheterization and selective angiocardiography. 355.
Stuckey, D.: Congenital heart defects following maternal rubella during pregnancy. 519.
Sutton, G. C. (and William Evans): Painless cardiac infarction. 259.

T

Thorne, M. G. (and Maurice Campbell): Congenital heart block. 90.
Turner-Warwick, Margaret (and Maurice Campbell): Two more families with cardiomegaly. 393.
Tweedy, P. S.: The pathogenesis of valvular thickening in rheumatic heart disease. 173.

U

Urich, H. (and D. W. Barritt): Congenital tricuspid incompetence. 133.

V

Vakil, Rustom Jal: Transitory præcordial pulsation in coronary occlusion. 248.
Venner, A. (and H. E. Holling): Disability and circulatory changes in mitral stenosis. 103.
—— (and R. J. Shephard): The pattern of respiration in rheumatic heart disease. 241.
Vickers, C. F. H. (and J. Mackinnon, and E. G. Wade): The effects of adrenergic-blocking agents on the pulmonary circulation in man. 442.
—— (and J. Mackinnon, and E. G. Wade): Mitral stenosis with very high pulmonary vascular resistance and atypical features. 449.
—— (and J. Mackinnon, and E. G. Wade): The nature of the increased pulmonary vascular resistance in mitral stenosis. 458.

W

Wade, E. G. (and R. M. Fulton, and J. Mackinnon): The ballistocardiogram in the diagnosis of coronary arterial disease. 65.
—— (and J. Mackinnon, and C. F. H. Vickers): The effects of adrenergic-blocking agents on the pulmonary circulation in man. 442.
—— (and J. Mackinnon and C. F. R. Vickers): Mitral stenosis with very high pulmonary vascular resistance and atypical features. 449.
—— (and J. Mackinnon and C. F. H. Vickers): The nature of the increased pulmonary vascular resistance in mitral stenosis. 458.
Webb, G. N. (and V. McKusick, O. Massengale, Jr., and M. Wigod): Spectral phonocardiographic studies in congenital heart disease. 403.
Wegelius, Carl (and Ib Boesen, John Lind, B. Merrild-Hansen, Th. Rosendal, and Ole Storm): The diagnosis of congenital heart disease in infants by catheterization and selective angiocardiography. 355.
Whitaker, W. (and James W. Brown, and D. Heath): Muscular defects in the ventricular septum. 1.
—— (and James W. Brown, D. Heath, T. L. Morris, and W. Whitaker): Tricuspid atresia. 499.
Wigod, M. (and V. McKusick, O. Massengale, Jr., M. Wigod, and G. N. Webb): Spectral phonocardiographic studies in congenital heart disease. 403.

Z

Zion, M. M. (and C. Papp): The postcommissurotomy syndrome. 153.
Zoob, M. (and F. Camerini, and J. F. Goodwin): Lead V4R in right ventricular hypertrophy. 13.

INDEX OF SUBJECTS

A

Aberrant beats of Wolff-Parkinson-White configuration in arteriosclerotic heart disease (I. Hoffman, M. H. Morris, L. Friedfield, and R. D. Gittler). 301.
Absence of the left pulmonary artery in Fallot's tetralogy (R. W. Emanuel and J. N. Pattinson). 289.
Abstracts of Cardiology. 140, 283, 430, and 571.
Acquired heart disease with argentaffin carcinoma (A. J. Goble, D. R. Hay, R. Hudson, and M. Sandler). 544.
Adrenergic-blocking agents on the pulmonary circulation in man. The effects of (J. Mackinnon, C. F. H. Vickers, and E. G. Wade). 442.
Adventitial infiltrations in coronary atherosclerosis. The significance of (L. M. Gerlis). 166.
Amyloidosis. Cardiac (R. Benson and J. F. Smith). 529.
Aneurysm of the aortic sinuses with pseudo-coarctation of the aorta (I. Steinberg). 85.
Angiocardiography. The diagnosis of congenital heart disease in infants by catheterization and selective (Ib Boesen, John Lind, B. Merrild-Hansen, Th. Rosendal, Ole Storm, and Carl Wegelius). 355.
Anomalous pulmonary venous drainage (J. B. Hickie, T. M. D. Gimlette, and A. P. C. Bacon). 365.
Anticoagulant therapy in cardiac infarction using the heparin retarded coagulation time. Selection for (A. A. Fitzgerald Peel). 378.
Aortic sinuses with pseudo-coarctation of the aorta. Aneurysm of the (I. Steinberg). 85.
Argentaffin carcinoma. Acquired heart disease with (A. J. Goble, D. R. Hay, R. Hudson, and M. Sandler). 544.
Arteries. A clinical method of studying the elasticity of large (J. Conway and K. Shirley Smith). 467.
Arteriosclerotic heart disease. Aberrant beats of Wolff-Parkinson-White configuration in (I. Hoffman, M. H. Morris, L. Friedfield, and R. D. Gittler). 301.
Atherosclerosis. The significance of adventitial infiltrations in coronary (L. M. Gerlis). 166.
Atresia. Tricuspid (James W. Brown, D. Heath, T. L. Morris, and W. Whitaker). 499.
Atrial septal defect (Lewis Dexter). 209.
Atrial septal defect. Auscultatory and phonocardiographic signs of (A. Leatham and I. Gray). 193.
Auscultatory and phonocardiographic signs of atrial septal defect (A. Leatham and I. Gray). 193.

B

Ballistocardiogram in mitral valvular disease (G. Izak and K. Braun). 44.
Ballistocardiogram in the diagnosis of coronary arterial disease (E. G. Wade, R. M. Fulton, and J. Mackinnon). 65.
Ballistocardiogram. The normal (L. Brotmacher). 145.
Ball-thrombus of the right atrium (Eva Frommer). 137.
Bicuspid pulmonary valve in association with calcific aortic stenosis (J. B. Enticknap). 561.
Bramwell, Crighton (Maurice Campbell). 433.

C

Cardiac amyloidosis (R. Benson and J. F. Smith). 529.
Cardiac failure due to primary amyloidosis (Heather Ashton). 422.
Cardiac infarction. Painless (William Evans and G. C. Sutton). 259.
Cardiac infarction using the heparin retarded coagulation time. Selection for anticoagulant therapy in (A. A. Fitzgerald Peel). 378.
Cardiomegaly. Familial (R. T. Gaunt and M. A. Lecutier). 251.
Cardiomegaly. Two more families with (Maurice Campbell and Margaret Turner-Warwick). 393.
Catheterization and selective angiocardiography. The diagnosis of congenital heart disease in infants by (Ib Boesen, John Lind, B. Merrild-Hansen, Th. Rosendal, Ole Storm, and Carl Wegelius). 355.
Cerebral blood flow estimated with thorium-B-labelled erythrocytes. Further studies on the (Gustav Nylin, Hans Blömer, Hardin Jones, Sven Hedlund, and Carl-Gösta Rylander). 385.
Chronic generalized myocardial ischæmia with advanced coronary artery disease (W. F. M. Fulton). 341.
Circulatory changes in mitral stenosis (H. E. Holling and A. Venner). 103.
Clinical method of studying the elasticity of large arteries (J. Conway and K. Shirley Smith). 467.
Clinico-pathological study of coronary disease (P. J. D. Snow, A. Morgan Jones, and K. S. Daber). 435.
Coarctation of the aorta. Nail-fold capillaries in (S. Spence Meighan). 496.
Coarctation of the aorta. The course and prognosis of (Maurice Campbell and J. H. Baylis). 475.
Congenital heart block (Maurice Campbell and M. G. Thorne). 90.
Congenital heart defects following maternal rubella during pregnancy (D. Stuckey). 519.
Congenital heart disease in infants by catheterization and selective angiocardiography. The diagnosis of (Ib. Boesen, John Lind, B. Merrild-Hansen, Th. Rosendal, Ole Storm, and Carl Wegelius). 355.
Congenital heart disease. Supernumerary chambers to left heart. (P. J. Barnard and A. J. Brink). 309.

Congenital heart disease. Radiological kinetics and pulmonary arterial pressure in (E. Donzelot, V. Serafini, J. Bougnoux, P. Kervoelen, and R. Heim de Balsac). 35.
Congenital heart disease. The influence of age on the hæmoglobin level in (R. J. Shephard). 49.
Congenital heart disease. Spectral phonocardiographic studies in (V. A. McKusick, O. N. Massengale, Jr., M. Wigod, and G. N. Webb). 403.
Congenital tricuspid incompetence (D. W. Barritt and H. Urich). 133.
Coronary arterial disease. The ballistocardiogram in the diagnosis of (E. G. Wade, R. M. Fulton, and J. Mackinnon). 65.
Coronary artery disease. Chronic generalized myocardial ischæmia with advanced (W. F. M. Fulton). 341.
Coronary disease. A clinico-pathological study of (P. J. D. Snow, A. Morgan Jones, and K. S. Daber). 435.
Coronary occlusion. Transitory præcordial pulsation in (Rustom Jal Vakil). 248.
Corrected transposition of the great vessels (B. S. Cardell). 186.
Course and prognosis of coarctation of the aorta (Maurice Campbell and J. H. Baylis). 475.
Crighton Bramwell (Maurice Campbell). 433.

D

Diagnosis of congenital heart disease in infants by catheterization and selective angiocardiography (Ib Boesen, John Lind, B. Merrild-Hansen, Th. Rosendal, Ole Storm, and Carl Wegelius). 355.
Disability and circulatory changes in mitral stenosis (H. E. Holling and A. Venner). 103.

E

Ebstein's anomaly surviving to the age of 79. A case of (J. C. L. Adams, and R. Hudson). 129.
Effect of digitalis on nodal rhythm with reciprocal beats (Evan Fletcher and Maude Stevenson). 557.
Effects of adrenergic-blocking agents on the pulmonary circulation in man (J. Mackinnon, C. F. H. Vickers, and E. G. Wade). 442.
Effects of reserpine on hypertensive patients over a period of two years (R. Hodgkinson). 523.
Elasticity of large arteries. A clinical method of studying the (J. Conway and K. Shirley Smith). 467.
Electrocardiogram in pneumoperitoneum, pneumothorax, and phrenic crush (B. R. Sreenivisan). 226.
Electrogram as an aid in the localization of pulmonary stenosis. Intracardiac (D. Emslie-Smith, K. G. Lowe, and I. G. W. Hill). 29.
Erythrocytes. Further studies on the cerebral blood flow estimated with thorium-B-labelled (Gustav Nylin, Hans Blömer, Hardin Jones, Sven Hedlund, and Carl-Gösta Rylander). 385.

F

Fallot's tetralogy. Absence of the left pulmonary artery in (R. W. Emanuel and J. N. Pattinson). 289.
Familial cardiomegaly (R. T. Gaunt and M. A. Lecutier). 251.
Foramen ovale. Premature obliteration of the (G. Austin Gresham). 296.
Further studies on the cerebral blood flow estimated with thorium-B-labelled erythrocytes (Gustav Nylin, Hans Blömer, Hardin Jones, Sven Hedlund, and Carl-Gösta Rylander). 385.

H

Hæmoglobin level in congenital heart disease. The influence of age on the (R. J. Shephard). 49.
Heart block. Congenital (Maurice Campbell and M. G. Thorne). 90.
Heart failure due to extreme obesity (T. B. Counihan). 425.
Heart failure. Radiology of the lung in left (D. S. Short). 233.
Heparin retarded coagulation time. Selection of anticoagulant therapy for cardiac infarction using the (A. A. Fitzgerald Peel). 378.
Hope Gosse (Sir Zachary Cope and Sir John Parkinson). 563.
Horder, Lord. (Goeffrey Bourne). 123.
Hypertensive patients over a period of two years. The effects of reserpine on (R. Hodgkinson). 523.

I

Influence of age on the hæmoglobin level in congenital heart disease (R. J. Shephard). 49.
Intracardiac electrogram as an aid in the localization of pulmonary stenosis (D. Emslie-Smith, K. G. Lowe, and I. G. W. Hill). 29.
Ischæmia with advanced coronary artery disease. Chronic generalized myocardial (W. F. M. Fulton). 341.

K

Kinetics and pulmonary arterial pressure in congenital heart disease. Radiological (E. Donzelot, V. Serafini, J. Bougnoux, P. Kervoelen, and R. Heim de Balsac). 35.

L

Late intracardiac R wave and the præcordial pattern of right ventricular hypertrophy (D. Emslie-Smith). 78.
Lead V4R in right ventricular hypertrophy (F. Camerini, J. F. Goodwin, and M. Zoob). 13.
Left atrial, "pulmonary capillary" and œsophageal balloon pressure tracings in mitral valve disease (A. J. Gordon, L. Kuhn, S. S. Amram, E. Donoso, and E. Braunwald). 327.
Lord Horder. (Geoffrey Bourne). 123.
Lung in left heart failure. Radiology of the (D. S. Short). 233.

M

Mitral stenosis. Disability and circulatory changes in (H. E. Holling and A. Venner). 103.
Mitral stenosis. The nature of the increased pulmonary vascular resistance in (E. G. Wade, J. Mackinnon, and C. F. H. Vickers). 458.
Mitral stenosis with very high pulmonary vascular resistance and atypical features (J. Mackinnon, E. G. Wade, and C. F. H. Vickers). 449.
Mitral valve disease. Left atrial " pulmonary capillary " and œsophageal balloon pressure tracings in (A. J. Gordon, L. Kuhn, S. S. Amram, E. Donoso, and E. Braunwald). 327.
Mitral valvular disease. The ballistocardiogram in (G. Izak and K. Braun). 44.
Muscular defects in the ventricular septum (D. Heath, James W. Brown, and W. Whitaker). 1.
Myocardial toxoplasmosis (J. W. Paulley, R. Jones, W. P. D. Green, and E. P. Kane). 55.

N

Nail-fold capillaries in coarctation of the aorta (S. Spence Meighan). 496.
Nature of the increased pulmonary vascular resistance in mitral stenosis (E. G. Wade, J. Mackinnon, and C. F. H. Vickers). 458.
Normal ballistocardiogram (L. Brotmacher). 145.

O

Obliteration of the foramen ovale. Premature (G. Austin Gresham). 296.

P

Painless cardiac infarction (William Evans and G. C. Sutton). 259.
Paradoxical splitting of the second heart sound (I. R. Gray). 21.
Patent ductus arteriosus with progressive dilatation of the pulmonary artery (J. A. Cosh). 417.
Pathogenesis of valvular thickening in rheumatic heart disease (P. S. Tweedy). 173.
Pattern of respiration in rheumatic heart disease (R. J. Shephard and A. Venner). 241.
Phonocardiographic signs of atrial septal defect. Auscultatory and (A. Leatham and I. Gray). 193.
Phonocardiographic studies in congenital heart disease. Spectral (V. A. McKusick, O. N. Massengale, Jr., M. Wigod, and G. N. Webb). 403.
Phrenic crush. The electrocardiogram in pneumoperitoneum, pneumothorax, and (B. R. Sreenivisan). 226.
Pneumothorax, and phrenic crush. The electrocardiogram in pneumoperitoneum (B. R. Sreenivisan). 226.
Postcommissurotomy syndrome (C. Papp and M. M. Zion). 153.
Præcordial pulsation in coronary occlusion. Transitory (Rustom Jal Vakil). 248.
Premature obliteration of the foramen ovale (G. Austin Graham). 296.
Pressure tracings in mitral valve disease. Left atrial " pulmonary capillary " and œsophageal balloon (A. J. Gordon. L. Kuhn, S. S. Amram, E. Donoso, and E. Braunwald). 327.
Proceedings of the British Cardiac Society. 284 and 565.
Pseudo-coarctation of the aorta. Aneurysm of the aortic sinuses with (I. Steinberg). 85.
Pulmonary arterial pressure in congenital heart disease. Radiological kinetics and (E. Donzelot, V. Serafini, J. Bougnoux, and R. Heim de Balsac). 35.
Pulmonary artery in Fallot's tetralogy. Absence of the left (R. W. Emanuel and J. N. Pattinson). 289.
Pulmonary circulation in man. The effects of adrenergic-blocking agents on the (J. Mackinnon, C. F. H. Vickers, and E. G. Wade). 442.
Pulmonary hypertension in dermatomyositis (I. W. Caldwell and J. D. Aitchison). 273.
Pulmonary stenosis. Intracardiac electrogram as an aid in the localization of (D. Emslie-Smith, K. G. Lowe, and I. G. W. Hill). 29.
Pulmonary vascular resistance and atypical features. Mitral stenosis with very high (J. Mackinnon, E. G. Wade, and C. F. H. Vickers). 449.
Pulmonary vascular resistance in mitral stenosis. The nature of the increased (E. G. Wade, J. Mackinnon, and C. F. H. Vickers). 458.
Pulmonary venous drainage. Anomalous (J. B. Hickie, T. M. D. Gimlette, and A. P. C. Bacon). 365.

Q

Q–T interval in rheumatic heart disease (L. Kornel and K. Braun). 8.

R

Radiological kinetics and pulmonary arterial pressure in congenital heart disease (E. Donzelot, V. Serafini, J. Bougnoux, P. Kervoelen, and R. Heim de Balsac). 35.
Radiology of the lung in left heart failure (D. S. Short). 233.
Reserpine on hypertensive patients over a period of two years. The effects of (R. Hodgkinson). 523.
Respiration in rheumatic heart disease (R. J. Shephard and A. Venner). 241.
Rheumatic heart disease. The pathogenesis of valvular thickening in (P. S. Tweedy). 173.
Rheumatic heart disease. The Q–T interval in (L. Kornel and K. Braun). 8.
Rheumatic heart disease. The pattern of respiration in (R. J. Shephard and A. Venner). 241.

Rheumatic mitral stenosis and aortic incompetence in a case of dextrocardia with situs inversus (N. R. Konar and D. C. Roy Chaudhury). 277.
Rubella during pregnancy. Congenital heart defects following maternal (D. Stuckey). 519.
R wave and the præcordial pattern of right ventricular hypertrophy. The late intracardiac (D. Emslie-Smith). 78.

S

Saddle embolus of the aortic bifurcation treated by embolectomy (B. A. K. Basu and A. Das). 126.
Second heart sound. Paradoxical splitting of the (I. R. Gray). 21.
Selection for anticoagulant therapy in cardiac infarction using heparin retarded coagulation time (A. A. Fitzgerald Peel). 378.
Significance of adventitial infiltrations in coronary atherosclerosis (L. M. Gerlis). 166.
Spectral phonocardiographic studies in congenital heart disease (V. A. McKusick, O. N. Massengale, Jr., M. Wigod, and G. N. Webb). 403.
Splitting of the second heart sound. Paradoxical (I. R. Gray). 21.
Stokes-Adams attacks in acute rheumatic carditis (T. C. Gibson and J. P. Hughes). 427.
Supernumerary chambers to the left heart (P. J. Barnard and A. J. Brink). 309.

T

Thorium-B-labelled erythrocytes. Further studies in the cerebral blood flow estimated with (Gustav Nylin, Hans Blömer, Hardin Jones, Sven Hedlund, and Carl-Gösta Rylander). 385.
Toxoplasmosis. Myocardial (J. W. Paulley, R. Jones, W. P. D. Green, and E. P. Kane). 55.
Transitory præcordial pulsation in coronary occlusion (Rustom Jal Vakil). 248.
Transposition of the great vessels (B. S. Cardell). 186.
Tricuspid atresia (James W. Brown, D. Heath, T. L. Morris, and W. Whitaker). 499.
Truncus arteriosus with a single ventricle (I. C. Cree). 553.
Two more families with cardiomegaly (Maurice Campbell and Margaret Turner-Warwick). 393.

V

Valvular thickening in rheumatic heart disease. The pathogenesis of (P. S. Tweedy). 173.
Ventricular hypertrophy. Lead V4R in right (F. Camerini, J. F. Goodwin, and M. Zoob). 13.
Ventricular hypertrophy. The late intracardiac R wave and the præcordial pattern of right (D. Emslie-Smith). 78.
Ventricular septal defect simulating patent ductus arteriosus (T. J. Danaraj). 279.
Ventricular septum. Muscular defects in the (D. Heath, James W. Brown, and W. Whitaker). 1.

W

Wolff-Parkinson-White configuration in arteriosclerotic heart disease (I. Hoffman, M. R. Morris, L. Friedfield, and R. D. Gittler). 301.
